

ASX / Media Release

30 July 2018

ASX code: **K2F**

K2fly's Fieldreach solution goes live in a major transport infrastructure client

Highlights:

- K2F solution has now gone live in Arc Infrastructure, a major transport infrastructure company.
- K2F has successfully deployed the market-leading Mobility software, Fieldreach, to this transport infrastructure manager. This further enhances K2F's presence in the asset intensive sectors.
- K2F continues to have successes in a highly competitive marketplace, and proves that it has the right people, products and industry alliances to offer solutions to Tier 1 clients.

Leading technology company K2fly Limited (**ASX: K2F**) (**K2fly**) is pleased to announce that stage 1 for Signals and Communications teams in the Fieldreach application has now gone "live" in Arc Infrastructure, and is being used on a daily basis. The contract was awarded in 2017 and was previously announced to ASX on 22 November.

K2fly CEO Brian Miller confirmed that the system is now in production and announced, "We are delighted that the joint project team, which included staff from both K2fly and Arc Infrastructure, has delivered on this challenging initiative. Their combined efforts have allowed the technology to be delivered to a number of remote users and the response has been positive."

Arc Infrastructure Director of Technology Branden Dekenah confirmed that this is the first major milestone in the project, which is seen as a key initiative by Arc Infrastructure to digitalise and remove manual paper-based processes in their workforce.

About K2fly

K2fly Ltd is an ASX listed Technology company which targets asset intensive industries. It supplies people, products and strategic alliances focussed on solving problems for clients.

K2fly owns the following technologies for use in Tier 1 companies:

Infoscope : A Data Collaboration solution

ADAM: Asset Data Analysis Management

K2fly also re-sells market leading software which has been developed by industry leaders in the USA, Australia, Europe and the UK. These solutions come from OBI Partners (USA), Kony (USA), Pointerra Limited (Aus), ABB (Switzerland) and Capita plc (UK), where they have an outstanding track record of delivering benefits to clients. K2fly has strategic alliances with global technology companies such as: GE(USA) and SAP (Germany).

In addition, K2fly provides cutting edge advice, consultancy and services when it deploys its subject matter experts who have extensive domain knowledge in such areas as Rail, Electricity, Gas, Water, Mining, Oil & Gas, Facilities Management, Aviation and Defence.

About Arc Infrastructure

Arc Infrastructure is a leading transport infrastructure manager in Western Australia. We currently operate the State's 5,500km freight rail network, connecting people, commodities and ports across the State with the rest of Australia and the world.

Spread across regional Western Australia, our team of 380 employees keeps the rail network operating 24/7. We live local, buy local and are committed to contributing to regional communities.

Previously called Brookfield Rail, we changed our name to Arc Infrastructure in July 2017 to reflect the aspirations for our future to expand our involvement in transport infrastructure assets. We're committed to working with industry, our customers, partners and communities to find new opportunities that will support and strengthen our rail network for the benefit of WA.
