K2fly Limited is an ASX listed technology provider of enterprise-level Resource Governance solutions to asset intensive and extractive industries.

Our solutions drive towards 'net positive impact' in ESG compliance, disclosure and technical assurance, through platform-based SaaS cloud solutions.

Driving ESG Outcomes

No other solution on the market brings together the functionality we offer in the one place to drive your ESG.

Single Source of Truth

Our solutions integrate with one another as well as existing system, meaning you can take confidence that the information and data you are relaying is constantly up-to-date.

Easily Accessible

As a SaaS Cloud solution, your global teams and third parties can securely access the information they need, no matter where they are in the world, and from almost any device.

Industry Partnerships

K2fly has strong partnerships with SAP, Esri, Descartes Labs, Cyient, The Keeping Place and Griffith University to extend our capability and support industry alignment.

Proven Solutions

We are trusted by the worlds biggest mining and asset intensive companies and continually develop our solutions to meet ever changing requirements.

Subject Matter Experts

Our team is made up of SMEs so that the solutions we develop are built to solve real industry challenges, from those who understand them.
